## Yale SensCheck™ Door Lock

SensCheck is the latest innovation from the Yale and REHAU partnership, to improve homeowners' window and door security.

A solution unique to REHAU, the Lockmaster 21 Multipoint Door Lock together with the SensCheck door lock from Yale gives fabricators and installers a distinct advantage in the market place.

**REHAU and Yale – A Secure Partnership.**

# Create the ultimate home security system

The unique-to-REHAU door lock provides housing for the Yale SensCheck device and includes REHAU-branded keeps. The sensor notifies homeowners through the 'Yale Home App' when door or windows are left open, thus giving the owner greater peace-of-mind over their home's security.

The Lockmaster 21 Multipoint Door Lock has been modified with different hook positions to suit a wide range of door sizes and as well as the Yale products, the profile has PAS24 accreditation providing the very best security measures for the homeowner.

## Benefits:

- Simple but effective security for peace of mind
- Secured by Design accreditation
- Geo-fencing, tamper alerts and arm or part-arm the home
- 10-year door lock guarantee
- 2-year sensor guarantee
- Technical support from the Yale Homeowner Consumer Division
- Compatible with Amazon Alexa and Google Assistant
- Reducing carbon footprint by one order of profile and hardware from REHAU

## Integrated into your home network

To connect the SensCheck Window and Door Sensors to a home network, a Yale Sync Hub is required. The Yale Sync Hub works hand in hand with the 'Yale Home' App, giving access to key features. The Yale Sync Hub has an integrated 94dB siren, which can be set to sound should the sensors experience an unexpected change in status.
