Engineering progress
Enhancing lives

REHAU CONNECT+ Digitalisation perfected.

A portal for every dimension – from lead to recycling.
Exclusive trade fair offers for Fensterbau Frontale 2026

REHAU | Window Solutions

Complex projects. Rising cost pressure.

The demands in window construction are increasing – yet the reality often remains one-dimensional.

- Isolated solutions instead of a single integrated portal.
- Inconsistent data between sales, planning and production.
- Time-consuming manual steps that cost time and margin.
- Limited transparency across projects, elements and processes.

The result:
Unnecessary complexity – and untapped potential.

This is the reality for many.

But:
There is a simpler way.

What if all processes worked seamlessly together?
What if data were captured once and used consistently throughout?
What if sales, planning, production and installation all worked from the same foundation?

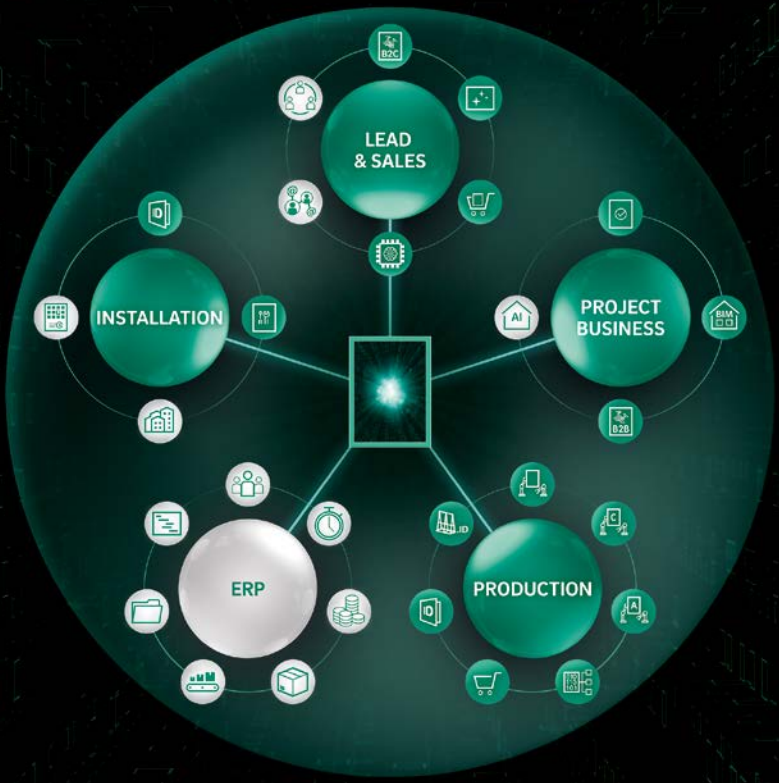
Instead of chaos, **structure** emerges.
Instead of isolated solutions, a **system** takes shape.
Instead of extra effort, **efficiency** is created.

> REHAU CONNECT+ unites all digital services on a single portal, structured as a modular ecosystem – integrated, transparent and future-ready.

REHAU CONNECT+, the end-to-end digital window portal.
From lead to recycling.

REHAU CONNECT+ for your success.

Digitalisation reimagined.
Simple. Efficient. Connected.



A window process, centrally managed.

From the first customer contact to installation — and beyond: True digital added value only emerges when all dimensions work together seamlessly.

An overview of the dimensions:

1. **Leads & Sales**
Simply win and convince customers.

2. **Project Business**
Simply manage projects.

3. **Production**
Simply produce with precision and efficiency.

4. **ERP**
Simply standardize processes.

5. **Installation**
Simply install and track.

Seamless data instead of media disruptions — from lead to recycling.

Sales: Demanding and highly competitive.

- Capacity constraints:
  Sales teams are working at their limits – leaving little time for genuine customer consultation.
- Lack of marketing materials:
  Content is difficult to access, often outdated, or time-consuming to create.
- Scattered information:
  Documents and key data are spread across multiple systems.
- Unclear sales management:
  Leads, quotations and progress lack clear, transparent oversight.

The result:
Limited visibility, unclear processes and lost sales potential.

REHAU LEAD PRO Kickoff package

For your entry, receive an individual website for lead generation, including a window configurator, free of charge until the end of the year.

Valid if you decide by 30 June 2026.

More enquiries. More orders. More efficiency.

REHAU CONNECT+ supports a clearly structured and high-performance sales process.

REHAU Lead Pro B2C
Qualified end-customer enquiries with all relevant building information.

REHAU Magicwall
The entire REHAU Window Solutions portfolio presented digitally, interactively and persuasively.

REHAU Marketing Shop
Customise marketing materials online and order them easily.

REHAU Content Hub
Technical knowledge, presentations and documents centrally available – instantly.

REHAU XRM – Contacts *
Organise all contacts centrally and access them at any time.

REHAU CRM – Sales Management *
Manage customers, quotations and pipeline centrally with full transparency.

* In cooperation with the development partner IDALABS.

Project Planning: Complex and fragmented.

- Time-consuming technical verification:
  Feasibility, structural checks and calculations require extensive manual coordination.

- Lack of digital models:
  Without BIM, there is no shared and up-to-date data foundation for all stakeholders.

- Cumbersome tendering processes:
  Texts must constantly be recreated and adapted.

- Complex coordination:
  Dispersed information leads to queries and delays.

- Slow quotation preparation:
  Configuration and costing require several steps and multiple systems.

The result:
Slow processes, unnecessary coordination rounds and increasing project risks.

Efficient planning. Confident decisions. Faster project completion.

REHAU CONNECT+ simplifies project planning through digital, end-to-end processes.

REHAU Planning
Plan with confidence, configure precisely and prepare tenders faster.

REHAU BIM
Precise BIM models for consistent and transparent planning.

REHAU Lead Pro B2B
Structured project data for successful project closures.

REHAU PMS – Projects *
Keep all projects, schedules and budgets centrally under control.

* In cooperation with the development partner IDALABS.

Production: High in variation and prone to errors.

- Manual manufacturing processes:
  Media discontinuities, duplicate data entry and time losses shape everyday production.
- Lack of traceability:
  Properties, changes and documents cannot be clearly tracked.
- Unclear element identification:
  Missing identification makes monitoring and quality assurance more difficult.
- Rack losses:
  Without clear visibility, racks are lost or must be searched for at great effort.

The result:
High error rates, rising costs and limited transparency throughout the entire manufacturing process.

REHAU Window.ID & Rack.ID Kickoff package

- Free installation of the REHAU Window.ID software and cloud application
- 6 months of free use of the REHAU Window.ID software and cloud application
- 20% discount on the first order for new customers
- 10 Rack.ID tags and Rack.ID setup included

Valid for orders placed by 31 July 2026.

Optimised production. End-to-end transparency. Reliable delivery.

REHAU CONNECT+ creates reliability through digitally guided production processes.

REHAU Fabricate
Control digital window production precisely and efficiently.

REHAU Fabricate CNC
Transfer data error-free directly from software to CNC machines..

REHAU Profile Data Service
Access up-to-date profile data for smooth processes.

REHAU Customer Portal
Place orders easily and keep everything at a glance.

REHAU Window.ID
Digital product passport throughout the entire lifecycle.

REHAU Rack.ID
Identify racks simply and track them seamlessly.

Corporate Management: Unclear and slow responses.

- Scattered personnel and time data:
  Planning, availability and compliance are difficult to control.
- Inconsistent financial data:
  Differing figures slow down investments and decision-making.
- Non-transparent inventories:
  Unclear asset and material statuses lead to shortages.
- Difficult-to-plan capacities:
  Utilisation and resources quickly fall out of balance.

The result:
High administrative effort, unclear data and uncertain decisions across the entire company.

REHAU ERP Kickoff package

1. The first three months free – experience the full benefits of REHAU ERP in cooperation with IDALABS
2. Or: No setup fee – start your ERP transformation without upfront costs.

Plus: Exclusive Digital Readiness Check – structured evaluation of your current processes and systems with recommendations for next steps

Valid for contracts signed by 31 May 2026.

Precise control. Transparent processes. Data-driven decisions.

REHAU CONNECT+ consolidates data for faster, more confident decision-making.

REHAU MM - Inventory *
Manage materials and stock centrally.

REHAU WFM – Time Management *
Plan working hours and capacities reliably.

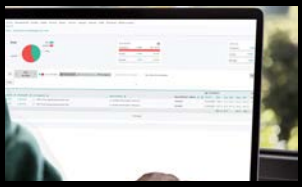
REHAU FI – Finance *
Manage and analyse finances transparently.

REHAU HR – Personnel Management *
Manage personnel centrally and digitalise processes.

REHAU EAM – Asset Management *
Manage assets throughout their entire lifecycle.

REHAU ECM – Document Management *
Organise and share documents digitally.

REHAU PMS – Capacity Planning *
Plan resources, schedules and utilisation transparently.



* In cooperation with the development partner IDALABS.

Installation Processes: Timeconsuming and inflexible.

- Manual workflows:
  Planning, reports and feedback are carried out without digital support.
- Time losses on site:
  Windows and components are difficult to assign clearly.
- Paper-based approvals:
  Checklists are lost or incomplete.
- Missing installation records:
  Photos and documentation are absent in case of complaints.

The result:
Low efficiency, time lost in window allocation, and high complaint risk due to laborious research.

REHAU Window.ID & Rack.ID Kickoff package

- Free installation of the REHAU Window.ID software and cloud application
- 6 months free use of the REHAU Window.ID software and cloud application
- 20% discount on the first order for new customers
- 10 Rack.ID tags and Rack.ID setup included

Valid for orders placed by 31 July 2026.

Faster planning. Digital approvals. Complete documentation.

REHAU CONNECT+ seamlessly connects project management, installation planning and window approvals digitally.

REHAU Window.ID
Track, approve and document – digitally secured.

REHAU Webshop
Order installation materials simply online.

REHAU PMS – Projects *
Plan centrally and manage projects holistically.

REHAU PMS – Installation Planning *
Plan installations efficiently and schedule them reliably.

* In cooperation with the development partner IDALABS.

Development Partner IDALABS – More Than Software. A Trusted Partner.

REHAU CONNECT+ is implemented together with the development partner IDALABS. IDALABS is a software company specialising in the digitalisation of craft and window construction businesses, developing its solutions in close collaboration with the industry.

REHAU Window Solutions and IDALABS support you in the next step of your digital transformation.

Consultation
Before the project begins, existing analogue and digital workflows are reviewed together. The goal is to align digital solutions precisely with your business – without adopting inefficient processes.

Onboarding & Implementation
A dedicated contact person guides your team through the introduction. This is complemented by a digital learning offering and regular exchanges during the startup phase.

Support & Service
Experienced digital experts who understand your business are available to answer questions quickly and reliably – directly, personally and efficiently.

Continuous Development
Solutions are continuously improved and regularly updated to meet the long-term demands of the industry.

REHAU CONNECT+ All-in-One Digitalisation for Your Business

Your Highlights at a Glance

Centralised Portal
All digital services bundled — for window manufacturers, dealers, architects and planners.

End-to-End Processes
From enquiry and planning through production and installation to service — with no media disruptions.

Greater Efficiency, Less Effort
Unified data flows reduce manual tasks, shorten lead times and improve process quality.

Full Transparency in Logistics & Installation
Digital rack management with Rack.ID ensures clear workflows and better planning.

Future-Proof & Compliant
Digital product passports and REHAU Window.ID simplify documentation across the entire lifecycle.

Modular & Flexibly Expandable
Open, modular ecosystem — use exactly what you need today and stay ready for future requirements.

Start your digital future today — with REHAU CONNECT+.
